MEMORANDUM

From: Dave Rupp, UT Division of Water Quality
To: Affected BLM & DOGM Personnel
Date: May 4, 1999
Subject: Various Mining Projects
DWQ Inventory File Nos. 69-71

We have reviewed copies of the NOI for the subject mines received over the last quarter. Diversion of storm water runoff before contact with waste rock and ore is recommended. Any stream alteration works should be reviewed by the Division of Water Rights. Beyond these considerations, it does not appear these operations, will have any water quality impacts. Any further mineral processing operations or expansion of mining will need to be reviewed. If you have any questions or further information on these items, please contact me at 801-538-6067.
